

# It's up to you to stop the flu. **Get your flu shot!**

We know the importance of protecting your employees while on the job. A flu shot can keep your employees healthy and ultimately save them from an untimely absence from the workplace. Keep your workplace safe and get vaccinated this flu season!

## **Get Your Employees Vaccinated On-Site!**

Total Occupational Medicine will come to your worksite or office to administer flu shots on-site, alleviating travel time and wait time involved in traditional in-clinic visits.

## **Total Occupational Medicine MEANS BUSINESS.**

We offer an array of near-site occupational health options. Services range from the treatment of workplace injuries and DOT/Non-DOT physicals to a wide variety of testing options and immunizations.

**Total**   
Occupational Medicine

To schedule  
your on-site  
flu shots, call  
(225) 924-4460.
